

Caraman Ltd are a family owned construction and development company. They have a number of years' experience within the sector and have completed both residential and commercial schemes ranging from extension work and one off bespoke homes through to multi- unit projects. They have focused in recent years on building quality, highly energy efficient homes and were one of the first homebuilders in Northern Ireland to complete an "A" rated home. Caraman are currently active with residential sites in Broughshane, Ballymena and Ballymoney with further schemes in the pipeline within other areas of Northern Ireland.
